WORK EXPERIENCE

01/10/2021 – CURRENT Galati, Romania

SENIOR WEB DEVELOPER WIND RIVER SYSTEMS

- Contribute with my skills to the rebranding of the company.
- Working closely with the marketing team on a regular basis and develop various web assets for product launches, events, seminars, campaign needs.

01/05/2018 – 30/09/2021 Galati, Romania

STAFF WEB DEVELOPER WIND RIVER SYSTEMS

- Working closely with the marketing team on a regular basis and develop various web assets for product launches, events, seminars, campaign needs.
- Develop features, pages and implement designs for the companies corporate website.
- Create emails for various marketing events and campaigns.
- Worked on the company's support network portal, both as front-end and back-end developer:
 - As back-end develop, within the CMS I've created various modules to support different business requirements: particular data model templates, history tracker plugins, connectivity with Oracle databases, MySQL optimization models.
 - As front-end supported the migration to the new design of the support network portal.
- Develop the RSS manager plugin for the CMS for the support organization with multiple channels, shared rss feeds across the channels and database driven.
- Migrate legacy assets to newer technologies:
 - Worked on a team that migrated the Marketplace portal to a newer platform that uses React. Process as a result of which I gained basic knowledges of React framework.
 - Migrate complex forms from the old Support Network platform to the new one.
 - Migrate the Product Lifecycle system for each product and version, both front-end and back-end.
- Develop API/WebHooks services within the marketplace portal to ensure communication with Salesforce.
- Develop solutions to automate various manual processes for migration and data modeling. As example I can mention the autosubscribe script, rewrite XML categories format, keyword search convert, licenses mapping script.
